

How To Get WCU College Credit For Your Landmark Learning Course(s)

Western Carolina University Parks and Recreation Management (PRM) Majors and Non PRM Majors can apply Landmark Learning coursework toward their degrees.

1. Determine your WCU college credit eligibility:

- You are a current WCU student seeking to receive academic credit as a part of your regular course load in the fall or spring semester. *Your course costs and your college credits are eligible for payment via your financial aid using this method, only.*
- You are a current WCU student that missed the semester's drop/add deadline for adding a course in the fall or spring but you still want credit.
- You are a current WCU student interested in academic credit during the summer.
- You are a non-WCU student any time of the year. Non-WCU students must apply as a non-degree seeking student, meet the entrance requirements of WCU, and pay a one-time application fee (currently \$65). Credits can be purchased for \$55/credit hour.

If you qualify for any of the last three options, please contact the Landmark Learning office for course availability and to register and pay for your course.

You will also register and pay for your college credit through WCU Continuing Education.

Alert the Landmark office that you are pursuing college credit through WCU.

Your registration with WCU Continuing Education must take place prior to your course dates to remain eligible for WCU college credit.

2. Contact PRM Professor Andrew Bobilya at ajbobilya@email.wcu.edu or (828) 227-3326 to gain access to registration for these courses each registration period. Let him know how you are planning to register for credit (see 4 options above).
3. Attend and successfully complete your course. Your course end grade will be provided to Dr. Andrew Bobilya at WCU.
4. Requests for credit transfer to your school can be made at the WCU Registrar's office at the end of the semester in which your course ended.

Additional Notes:

Students completing a minor in PRM with WCU can successfully complete the Landmark Semester along with PRM 250 and PRM 270 to meet complete PRM minor requirements.
